

**Job Title: Project Structural Engineer**

**Location: Guam**

---

**Position Overview: We are seeking a qualified Project Structural Engineer to oversee and manage structural engineering projects from conception through completion. The ideal candidate will possess strong technical skills, excellent problem-solving abilities, and a passion for delivering high-quality engineering solutions.**

**Key Responsibilities:**

- **Facilitate preparation and completion of competitive bids on time**
- **Attend periodic internal meetings**
- **Attend solicitation meetings and site visits**
- **Maintain close contact with customers/clients**
- **Perform coordination and periodic toolbox meetings with the Site Project Engineer.**
- **Coordinate with procurement for materials and equipment acquisition**
- **Prepare overall project schedule during the bid phase and assist in executing them during the construction phase**
- **Assist the President in the application for construction business license and qualifications**
- **Assisting in field work in the absence of the mason, carpenter, or other team members as needed.**
- **Supporting various tasks related to masonry, carpentry, and other construction-related activities.**
- **Consult on day-to-day operation matter.**

**Qualifications:**

- **Bachelor's degree in Civil or Structural Engineering.**
- **Professional Engineer (PE) license or the ability to obtain one in Guam.**
- **Minimum of 5 years of relevant experience in structural engineering.**
- **Strong knowledge of structural analysis software and design tools.**
- **Excellent communication, teamwork, and leadership skills.**
- **Ability to manage multiple projects and deadlines in a fast-paced environment.**
